

ETONRIDGE®

Naturally Sourced Spring Water

ETONRIDGE®

Naturally sourced pure water from
the deep-seated hills of the
Roundton Hill Nature Reserve,
volcanic in origin and managed by
the Montgomeryshire Wildlife Trust
on the English Welsh border.

A dark, stylized silhouette of rolling hills or mountains, spanning the width of the lower half of the image.

Naturally Sourced Spring Water

ETONRIDGE®

VOLCANIC PURITY. NATURALLY SOURCED

Our spring water is composed of essential minerals and nutrients as a result of hundreds of years of undisturbed passage through the ancient rock formations in the mid-Wales county of Montgomeryshire. Bottled in the rural village of Churchstoke; an area of outstanding natural beauty, nurturing wildlife and supporting foliage including 470 plant varieties, such as the mountain pansy.

Montgomeryshire Wildlife Trust

ETHICS. RESPONSIBILITY.

Our shared values with the Montgomeryshire Wildlife Trust to protecting wildlife and wild places are underpinned by our own ecological conservation, by preventing any loss of natural resources. Our bottling facility generates its own electricity through 2,000 state of the art solar panels, as we constantly seek ways to reduce our carbon footprint.

ETONRIDGE®
